

ARYAN PANDEY

+91 9559287755 | [LinkedIn](#) | [GitHub](#) | [Gmail](#)

CAREER OBJECTIVE

Computer Science undergraduate building AI-powered applications and intelligent product features. Skilled in Python, JavaScript, React and Generative AI, with hands-on experience in LLMs, RAG, AI agents, APIs and full-stack development.

EDUCATION

Pranveer Singh Institute of Technology

KANPUR, UP

Bachelor of Technology, Computer Science & Engineering | CGPA: 8.3

St. Antony's Inter College

LUCKNOW, UP

Intermediate (ISC): 90.25% | High School (ICSE): 95.25%

SKILLS

Languages: Python, Java, JavaScript, SQL, C

AI & Agentic AI: LLMs, Generative AI, RAG, AI Agents, Prompt Engineering, Embeddings

Web & Backend: React, FastAPI, REST APIs, Vite

Core: Data Structures & Algorithms, Object-Oriented Programming

Tools: Git, GitHub, VS Code

Enterprise: SAP BTP, SAP Generative AI

PROJECTS

KAIRO — Enterprise AI / RAG Platform

- Built an end-to-end enterprise RAG system for document ingestion, PDF extraction, chunking, embeddings, semantic retrieval and grounded LLM response generation.
- Developed Python/FastAPI backend services connecting query embeddings, retrieval and Gemini-based generation, with source-backed responses for improved answer grounding.

1-1 AI INTERVIEW PREP TOOL

- Built an AI-powered interviewer capable of conducting role-specific interviews with conversational context and adaptive follow-up questions.
- Integrated LLM-based response generation with voice interaction using Groq/Llama and ElevenLabs text-to-speech.

TRUECREDS — Advanced Credential Validation & Storage via BlockDAG

- Developed an AI-powered credential verification platform for analyzing and validating digital certificates and project credentials.
- Integrated IPFS/Kaspa-inspired verification and BlockDAG anchoring concepts to create secure and verifiable credential records.

INTERNSHIPS

AI Content and Talent Manager

Eye Media Solutions

- Coordinated with teams on talent acquisition, strategic stakeholder partnerships and digital marketing activities with brands like Hyundai, KuKu FM, Plix.
- Supported operational workflows and stakeholder communication across campaigns.

AI Intern

Flyrank AI

- Worked with emerging AI technologies and workflows, building a practical understanding of how AI can support different business functions.
- Designed and maintained APIs for communication across application components and worked with databases to manage application data.

ACHIEVEMENTS & LEADERSHIP

Finalist & Presenter - TECH EXPO 2K25

PSIT KANPUR

Finalist - Axis Hacksprint

AXIS COLLEGE

Joint-Secretary - Core Committee

PSIT KANPUR

CERTIFICATIONS

- SAP ERP Certified Generative Ai Developer - SAP ([view](#))
- AWS Solutions Architect JS - Forage([view](#))
- Product Management - Great Learning ([view](#))
- Electronic Arts - Product Management Simulation ([view](#))
- Generative Ai Professional - ORACLE OCI ([view](#))
- Siemens Mobility - Project Manager Job Simulation ([view](#))
